

Switzerland of Ohio Local School District: Student Success and Wellness Plan

Goal: Identify areas of need for students in Switzerland of Ohio Schools and how resources can best benefit the students at risk and in need of social-emotional and behavioral wellness.

Current supports: Through Switzerland of Ohio School's Ohio School-Based Health Care plan and partnerships with Mental Health & Recovery Board, East Central Ohio Education Service Center Prevention Services, South East Counseling, & GMN, areas of need have been established and measures to continue to determine needs are in place.

Outcome: From current supports, expanded needs and greater resources for our students should be established through networking, the addition of supports and curriculums to address student social-emotional and behavioral wellness ultimately resulting in academic success and graduation from Switzerland of Ohio Schools.

2023-2025 Plan

1. Maintaining current Prevention Specialists - 2 for high school, 1 for elementary
Certification - Ohio Certified Prevention Specialist (various levels)
Funded through Mental Health & Recovery Board and school district
[23-25 GMN/Student Services Plan](#)

2. Maintain Behavior Therapists at all buildings (8) and two BCBA and Interim BCBA

Survey Data

OHYES! - asks more mental health questions but turnaround data is delayed

Pride Survey - every 5 years (\$2.60/student) limited data (not so much mental health data - focuses on substance use/abuse)

Maintain School-Based Therapists through Southeast.
Minimum Bachelor's with LSW

2023-2024 Student Wellness and
